

International Plant Breeding Congress

www.intpbc.org

10-14 NOVEMBER, 2013, ANTALYA, TURKEY

SECOND ANNOUNCEMENT

General Information

The congress will be organized by Plant Breeders Sub-Union of Turkey (BİSAB) together with Turkish Plant Breeders Association (TUBİD), Turkish Seed Union (TURKTOB), ECO Seed Association (ECOSA), along with other such national (GDAR) and international organizations (CIMMYT, ICARDA, EUCARPIA, CIOPIRA, etc.). Supporting institutions are Moldova Academy of Science, Serbian Seed Trade and Plant Breeders Association, Bulgarian Seed Association, Hellenic Plant Breeders and Genetic Society, Murdoch University.

We intended to bring three different communities together as research and private investment, in a friendly environment of Antalya / Turkey to share what they have and get benefit from each other.

Venue

The Congress will take place in WOW Topkapi Palace Hotel in Antalya, Turkey.

<http://www.wowhotels.com/wowtopkapipalace.asp>

Subjects

Congress will cover following subjects:

- Conventional Breeding
- Molecular Genetics and Biotechnology
- Genetic Engineering and Genomics
- Genetic Resources for Pre-Breeding

Language

Official languages of Congress are Arabic, English, Russian and Turkish. Simultaneous translation on these languages will be during the congress.

Instructions for Abstract Submission

Abstracts could be in any of the congress languages. If abstract submitted in Arabic, Russian and Turkish, an English translation of abstract is requested. Abstracts shall not exceed 250 words written in MS Word format. State the name) of author, address and email address shall be provided via e-mail as attached file.
